

2nd Security Roundtable HIPAA Collaborative of Wisconsin March 11, 2005

Purpose

This is the second in a series of in-depth roundtable discussions of specific implementation topics for persons in Wisconsin responsible for HIPAA security compliance. There will be two topics discussed at this Roundtable. The focus will be on HIPAA contingency planning including establishment of procedures to enable continuation of critical business practices during emergencies. The second will focus on auditing and monitoring logs, reporting discrepancies, and managing events.

Speakers

Jerry Reick, CBCP, CHS-II, Business Continuity Lead at Rockwell Automation.
Jerry has 6 years experience in Business Continuity Planning at two global corporations with multiple facilities and data centers. Prior to that, Jerry spent 15 years as a software application developer and department manager. His industry experience includes banking, insurance, financial services, healthcare and manufacturing. He has 23+ years of military experience with 10 years in planning and operations. His certifications include Certified Business Continuity Planner (CBCP) and Level 2 Certification in Homeland Security - CHS-II.

Michael Rasmussen, CISSP, Principal Analyst - Risk/Compliance Management at Forrester Research, Inc.
Michael is an information risk professional with more than 10 years of experience, he provides advice to clients around the globe on issues pertaining to risk and compliance management as well as public policy, legislation and regulation impacting information technology. Considered one of the foremost authorities in understanding the broad view and impact of information standards, regulations, and legislation, Michael has worked closely with large commercial organizations and government agencies.
